

# Women's Financial Wellbeing

CommBank Multicultural Community Banking in collaboration with The Harmony Alliance

To valued Women's Financial Wellbeing Advocate

**Financial wellbeing is central to our overall wellbeing, it affects the lives we lead and the choices we're able to make**

For women, financial wellbeing can be more challenging to achieve than for men. There are structural and systemic issues to contend with, like the gender wage gap, a superannuation system that provides greater benefits to full-time workers who don't take parental or carer's leave. As we strive towards a more equal and inclusive society, women's long term financial wellbeing can benefit enormously from women engaging with their finances and in particular CALD women.

## Details of the Financial Well Being event

At CommBank we recognise the importance of empowering women and we would love the opportunity to create awareness about some of the resources we have created to support Women's Financial Wellbeing and Financial Abuse awareness, particularly for CALD communities and also to discuss the issues with respected and valued members of the community.
